ARMOUR LINES DEFY COMMERCE COMMISSION

Government Has No Right to Probe

THIS IS THEIR IMPUDENCE

Deny Right of Commission-
ers to Investigate "Pri-
vate" Business.

(Scripps-McRae Dispatch.)
WASHINGTON, Nov. 3.—The Ar-
mour car lines hurled defiance into
the teeth of the interstate commerce
commission today. Through Attorney
A. F. Reichmans they denied the
jurisdiction of the commission over
"private affairs," refused to permit
President George B. Robbins of Chi-
cago to ask questions and pro-
tested against the dilatory policy of
the inquiry, charged the commission
was moved by political purposes and
declared the matter would be taken
for adjudication before the "proper
tribunal."

"How many cars of the Armour line
are in the packing house business,"
was the question asked by Robbins
that precipitated Reichmans' ob-
jection. He contended Armour & Co.
are not in the carrying business, that
it leases cars to the railroads and fur-
nishes refrigeration. He said the
railroads do not fix charges for re-
frigeration and the Armour lines do
not fix the transportation rates.

Reichmans denied that Armour &
Co. and the Armour line were the
same and declared if they were it
was a private matter into which the
commission had no right to inquire.

DIES OF WOUND IN- TENDED FOR SEN- ATOR WRIGHT

(Scripps-McRae Dispatch.)
WAUSAU, Wis., Nov. 3.—J.
A. McKay, chief scaler for the
C. & M. & St. P. road, died this
morning as the result of being
wounded by a bullet intended for
Senator Wright of Merrill. A
man named Lloyd fired after a
quarrel with the senator.

FIVE PULPITS WILL BE EMPTY.

JANESVILLE, Nov. 3.—With the
resignation of the Rev. A. H. Bar-
rington of Christ Episcopal church,
five pulpits of the church are now
vacant or soon will be. At Beloit the
Rev. H. J. Purdue completed his
work last Sunday; at Evansville the
Rev. Wilson is soon to leave and
go to Superior; at Madison there is
no pastor and at Baraboo the Rev.
H. J. Simpson has resigned.

HIS KIN WANTED INQUEST

And Jury Looks Into Brischke's Death

FIND DEATH WAS ACCIDENT

Detailed Testimony Prac-
tically Same as Tribune's
Account of Affair.

The first inquest held in La Crosse
county under the new state law which
empowers the district attorney alone
to order investigations by the coroner
regarding deaths, is being conducted
this afternoon.

In response to the request of rela-
tives of deceased District Attorney
Bossard this morning authorized
Coroner Cronon to call an inquest
over the remains of Edward Brischke,
who accidentally shot himself while
out hunting with Earl Sloate yester-
day morning, and died from his
wounds two hours later.

The following coroner's jury was
empanelled: Jule Freas, J. H. Light-
body, H. E. Wheaton, Thomas Her-
man, Charles Linker and Ole Tollef-
son.

The jury met at 2:15 this afternoon,
in Mr. Cronon's office in the county
building and after being sworn pro-
ceeded to Miller Brother's undertak-
ing establishment, where the body of
the dead boy was viewed. The jury
then returned to the court house.

Earl Sloate described the accidental
shooting of Brischke, practically as
recorded in last evening's Tribune. It
occurred about 7:45. The barrels of
the shotgun went off as if some one
had pulled the triggers, there being
but a fraction of a minute between the
shots. Brischke pulled the gun to-
ward him barrel foremost. The trig-
gers caught on a seat. Witness was
kneeling in front of Brischke and
turned around as the shots were fired.
He found Brischke lying in the
bottom of the boat. In order to get
the wounded boy to New Amsterdam
he had to wade through water waist-
deep. Byron Mulder assisted in car-
rying the wounded boy from the
shore to the house. Physicians were
telephoned. A. J. Miller, undertaker,
testified regarding the condition of
the body when he arrived. The boy
had evidently bled to death.

The jury's verdict was "that deceased
came to his death by the accidental
discharge of a shotgun while being
drawn by him over the seat of a boat
in which he was seated at the time."

FARSON TO PUSH INTERURBAN TO MADISON.

JANESVILLE, Wis., Nov. 3.—
John Farson announces that he is now
sole owner of the Janesville, Beloit
and Rockford Interurban company
and that he intends to extend the line
to Madison.

O.F. BYE WEDS

Announcement is made of the wed-
ding of Olaf F. Bye of this city and
Eva Bowers, which occurred in Cal-
edonia Wednesday. The young couple
will make their home in this city, the
groom being employed by the J. D.
Bickel Produce company.

PROMINENT LUMBERMEN SUED

(Scripps-McRae Dispatch.)
ST. PAUL, Minn., Nov. 3.—Suits
began today in federal court against
Frederick Weyerhaeuser and fourteen
other prominent and wealthy lum-
bermen to recover 26 tracts of land for
the government. It is alleged the
lands were acquired innocently in ex-
change for California lands from Fred-
erick A. Hyde, John A. Benson and
C. E. Glover, accused of land frauds
in the west. C. W. Clark of San
Francisco, it is alleged, is agent for
the trio. Washington state officials
are implicated.

RUSS STUDENTS DIE NEEDLESSLY

Fighting Has Now Shifted
to Workmen and Stu-
dents in Russia

(Scripps-McRae Dispatch.)

ODESSA, Nov. 3.—This city is an
inferno. The sacking of Jewish quar-
ters and pillaging and murder con-
tinues unchecked. For over forty-
eight hours, now, the town has been
a seething caldron of tumult. Troops
this morning contented themselves
with preventing the pillaging of
homes of Christians. General Kaul-
bars has earned the detestation of ev-
ery decent person in the city. He al-
lows the mob full sway. Students are
throwing their lives away uselessly
in attempts to subdue the mobs.
Their efforts in this direction caused
the cossacks to attack them as riot-
ers. About noon the situation im-
proved. There was no attempt how-
ever to resume business operations.

Workmen the Brutest.

MOSCOW, Nov. 3.—A procession
of students returning today with
comrades released from prison were
attacked by workmen at the Trium-
phal Arch. Ten students were killed.

Vice Governor Flees.

KOZLEV, Nov. 3.—The vice gov-
ernor has fled from the city. Cit-
izens are preserving order. The
crowds demand the release of politi-
cal prisoners.

ROBBERS FAIL IN ATTEMPT TO ROB SECOND TIME

(Scripps-McRae Dispatch.)
WASHINGTON, Ind., Nov. 3.—
Robbers this morning were unsuccess-
ful in an attempt to rob the National
bank at Odon, fifteen miles from San-
born where they got \$4,000 yesterday.

PERKINS REACHES STOCKHOLM

(Special Tribune Dispatch.)
STOCKHOLM, Nov. 3.—George
W. Perkins, representing J. P. Mor-
gan and other financiers, has arrived
here from Russia on a steamer. Per-
kins says strikers tried to prevent the
ship from sailing, but the captain elud-
ed them.

Railroad Will Put in Spur to Abattoir

Announcement has been made that
the Milwaukee railway company will
build a spur track to connect with the
abattoir, and this assures the opening
of a cold storage plant by local capi-
talists plans for which were made
public some time ago. Norman B.
Leslie, manager of the grocery de-
partment of the Park store, is at the
head of the movement.

If you can afford to pay a few dol-
lars more for a thing, now and
then, than is necessary, then you can
afford to overlook the ads. now and
then.

UNIFORM RANK OF MACCABEES

First in Northwest Towns
Will be Organized
Here Soon.

La Crosse will have the first uni-
formed rank of the order of Mac-
cabees of any city its size in the
northwest.

A movement to perfect an organiza-
tion of this branch of the national
order here is already well under way
and first steps are expected to be
taken soon toward the consummation
of the plan.

At present efforts of the committee
which has the matter in charge are
being directed toward a canvass of
all the Maccabees in the city with a
view of determining the prospective
membership of the uniformed rank.
Will Christie is chairman of this
committee.

When the preliminary work has
been completed officials of the grand
lodge will be consulted, followed by
formal application for the installation
of a uniformed rank here.

The nearest order of uniformed
rank is located at Milwaukee. With
200 Maccabees in La Crosse the suc-
cess of the big undertaking is alrea-
dy assured.

NEW YORK ARCH- TECT FALLS TO HIS DEATH.

(Scripps-McRae Dispatch.)
SAN FRANCISCO, Nov. 3.—Louis
Levy, aged 36, the New York archi-
tect who perfected the architectural
scheme for the University of Califor-
nia, who just arrived to give advice
on beautifying this city, was taken ill
of ptomaine poisoning at the home
of a cousin. He sought air at the
window, fell and crushed his skull and
died an hour later.

INCREASING DEMAND FOR PAPER BILLS

United States Treasury Treat, in
his annual report for 1905 on the con-
dition of national currency, says that
there is a constantly increasing de-
mand for paper bills of the denomina-
tions of \$10 and under owing to the
expansion and development of the
business interests of the country.
Notes of larger denominations gradu-
ally are being redeemed, smaller
bills taking their place.

The coinage of silver dollars, he
declares has been discontinued, ow-
ing to the exhaustion of bullion. It
is estimated that the maximum cir-
culation of this coin has been reached.
conclusion Mr. Treat says:

"The continued increase in our mo-
netary stock and circulation calls at-
tention of financiers, and also excites
a just pride among our people as an
evidence of the remarkable growth of
the resources of the country. The to-
tal stock of money on June 30, 1905,
was \$2,874,109,864, of which \$295,227-
211 was held in the treasury as assets
of the government, and \$2,578,882,653
was in circulation, making a per capi-
ta of \$31.68."

J. D. Hiscox of 611 Rose street re-
ceived a message this morning an-
nouncing the death of his brother,
Benjamin H. Hiscox, at Norwich,
Conn., last night. The message was
from Dr. V. Hiscox, a son of deces-
ed, also of Norwich.

Prominent Mankato Citi-
zens Arrested for Break-
ing the Game Law

Game Warden H. C. Towne of
Mankato, Minn., has seized 217 mal-
lard ducks, packed in two trunks at
Easton, Minn., while being put aboard
a train for La Crosse.

He states that this was the fourth
shipment and that warrants will be
issued shortly for the arrest of three
prominent business men of Easton on
the charge of unlawfully shipping
ducks out of the state.

It is not known to what parties in
this city the game was billed.

MISSIONARIES WERE ALL MURDERED BUT TWO

(Special Tribune Dispatch.)
HONG KONG, Nov. 3.—Reports
from Lienchow show the mission was
attacked because Dr. Mackle request-
ed the removal of a street theatre,
near the mission, on account of the
noise.

The request incensed the Chinese
who attacked the hospital, burned the
girls' hospital and girls' school and
residences of the missionaries who
escaped to a cave where they were
followed and all were killed, except
Dr. Mackle and Miss Patterson who
escaped to Yamen. The American
gunboat Callas and two Chinese gun-
boats are proceeding to the scene of
the massacre.

MILWAUKEE FIRM GETS CONTRACT

MADISON, Wis., Nov. 3.—The
state board of control yesterday let
a number of contracts for small in-
cidents of equipment at state institu-
tions. A contract was let to the Hoff-
man & Billings company, of Milwa-
ukee, for steam pipes to be used at the
state prison at Waupun, the price be-
ing \$1,007.

The Milwaukee Bridge company
was awarded a contract for a turntable
to be installed at the prison, the
price being \$740.

A contract was let to the O'Leary
Brothers of Green Bay for a smoke
flue at the reformatory at Green Bay,
\$280 being the contract price. The
board has not yet completed the pre-
sent session.

ARM TORN OFF IN A CORN SHREDDER

On a farm three miles north of
Coon Valley, last Thursday, when in
the work of feeding a corn shredder
machine, Frank Lusk, a son of Jos.
Lusk, aged about eighteen years, was
so firmly caught in the embrace of
the deadly machine that his right arm
was literally torn out at the shoul-
der joint, and run through the shred-
der. Dr. Storlie and an assistant
surgeon from Bangor, had the case,
and it was feared the shock and se-
vere injuries would prove fatal with
their patient.

Christian Scientists Protest.

DROPPED HIM FROM CHURCH

Milwaukee Official of the
Faith Quotes Signifi-
cant Scriptures.

Milwaukee, Wis., Nov. 1, 1905.
Editor The La Crosse Tribune,
La Crosse, Wis.

Dear Sir: My attention has been
called to the article in your issue of
Oct. 31, entitled, "Christian Science
Cause of Their Divorce," and as I am
sure the La Crosse Tribune wishes
to be just to all, and in view of the
great reformatory work being ac-
complished by Christian Science and
the high standing in your community
of its local adherents, as well as on
the general plea of fairplay, I trust
you will give me space to briefly cor-
rect this mis-statement; for it must
be evident to everyone that it is un-
fair to hold any religion responsible
for the misdoings of those who pro-
fess to believe in its doctrine.

In the case referred to both hus-
band and wife claimed to be Chris-
tian Scientists, although Mr. Kelley
was evidently insincere, as the local
church had been compelled to dis-
miss him from membership some time
ago and very soon after his admis-
sion to membership.

It should also be made clear to your
readers that Mr. Kelley deserted his
wife, and this is the grounds on which
the divorce was obtained, and the ac-
tion was brought with the utmost re-
luctance on Mrs. Kelley's part.

Instead of being a cause of divorce,
Christian Science—if put into prac-
tice—would speedily abolish di-
vorces. It is the absence of Chris-
tian Science in the lives of some who
profess to be its adherents which
causes such occurrences as the one
under consideration.

In conclusion, let me say that if Mr.
Kelley made the claim that "Incom-
patibility of temperament resulting
from differences of opinion over the
introduction of Christian Science in
his home," was the cause of the di-
vorce, we would commend for his
earnest consideration the following
from second chapter of St. James:
"Let no man say when he is tempt-
ed, I am tempted of God. . . . But
every man is tempted when he is
drawn away of his own lust and en-
ticed."

Very respectfully,
JAMES PHELPS.

WESTERN CREOSUS HURT IN AUTO WRECK

LOS ANGELES, Cal., Nov. 3.—Walter Scott, a Death Valley miner, who attracted wide attention a few weeks ago by a record run in a special train from Los Angeles to Chicago, was seriously, if not fatally, injured in an automobile accident last night. J. Davidson, a newspaper reporter, and Harry Millin, proprietor of a cafe, were also injured.

The three men were in an automobile which was to run to Pasadena and return on a wager of \$500 that the trip could be made in forty minutes. On the return journey, while leaving the approach to a bridge at Elysian Park, a rear tire came off, the wheel was smashed and the automobile swerved and upset.

Messrs. Scott and Davidson were thrown against the stone abutment of the bridge. Mr. Scott was injured about the head, back and shoulders, and was taken to his home. Davidson was rendered unconscious. He will recover. Milling was only slightly hurt. The chauffeur escaped injury. Scott will recover, physicians say.

Preacher Foils Masked Robbers.

GRAYTON, Ky., Nov. 3.—The Bank of Willard, in this county, was broken into about two o'clock this morning and would have been robbed but for the bravery of the Rev. Jas. Willoughby.

Many citizens were awakened by a terrific explosion and among them was Mr. Willoughby. With several friends he hurried across from his room to the bank building and saw two men, wearing masks, standing in front of the building and four others running out.

Mr. Willoughby opened fire, shooting in the air, and the robbers escaped in the darkness, after a posse had chased them half an hour.

A report from Riverton, Ky., says the robbers were surrounded late last night in the woods near Willard by a second posse and in a pitched battle

two of the robbers were mortally shot. One of them gave his name as G. E. Smith, of Plum street, Cincinnati, Ohio, and the other as J. W. Wood, of Vincennes Ind.

The safe of the bank was blown open and the front of the building was badly damaged, but while several thousand dollars were exposed to view, none of the money had been touched.

It is believed the robbers recognized Mr. Willoughby, for his shots were not returned. He is very popular in the mountains and is noted for his bravery.

STAGE AMUSEMENTS

VAUDEVILLE AND THE AMATEURS AT BIJOU.

TONIGHT PROGRAM
TO BE A WINNER

A combination of two big shows at the Bijou theatre tonight is the special Friday night offering.

Beside the regular excellent show there will be a number of amateurs who will appear at both performances, at 7:30 and 9 o'clock. These amateurs will include some clever local stage people and will undoubtedly draw largely.

The vaudeville being played at the Bijou this week is of such an excellent quality that it has been witnessed by thousands of people since the opening Monday. The full vaudeville show of music, songs, dancing, dialogue and wit will be put on in addition to the amateur performers—and all for the price which has made the Bijou the popular playhouse of La Crosse—10 and 15 cents.

OUR PASTOR COMFORTS HIS FLOCK

La Crosse playgoers are promised something out of the ordinary run of dramatic offerings in Daniel Sully's

new play, "Our Pastor," which will be seen at the La Crosse theatre Tuesday, Nov. 7. In this play Mr. Sully appears as the pastor of a little church in an Idaho cattle town, where his lot is cast among a rough lot of typical western characters; he breaks up a lynching party, straightens out tangled love affairs and takes an active part in shaping the destinies of all who come within his sphere of influence. The role of Father Daly suits him admirably and the play is undoubtedly the best and most satisfactory he has ever presented.

A STORY BY THE LEADING MAN IN "THE CROSSING"

John Blair, who is playing the leading role of Nicholas Temple in Winston Churchill's "The Crossing," which comes to La Crosse theatre Wednesday, Nov. 8, was praising John Drew's wit.

"Drew is the wittiest man I ever met," he said. "He is never at a loss. In any crisis, any emergency. His wit saves him."

"Once in his youth he forgot his lines in a Sheridan comedy. 'Dressed as a young fop, he stood conversing with a soldier, and suddenly his memory went back on him. Every word of his part left his head. 'He looked impatiently at the prompter. The prompter's lips moved, but Drew could not make out what the man said. So, he muttered, 'Louder, prompter, louder!' And a murmur came to him, but it was a murmur which he could not understand."

"In this crisis, many a man would have given himself up for lost. Not so, Mr. Drew."

"I will return anon," he said, and stalked off to read up his part."

SMITH-MARSHALL VAUDEVILLE CO.

The Smith-Marshall Vaudeville company appeared at the La Crosse theatre last night and put up a good clean show, high class in every particular.

Herbert & Vance, a clever musical act, introduced a novelty musical act and played well on a number of instruments.

Neilson Bros. introduced a comedy act in which the younger member of the team showed some good work in singing and dancing.

Noblette and Marshall, a good comedy sketch team, pleased with songs, dances and witty sayings. The lady is extremely beautiful and has a very pleasing personality, while the man provoked many hearty laughs.

The feature of the show is the exceedingly clever magician, Frank Bowman, who is an entertainer very much on the order of the original Hermann, and he kept his audience constantly laughing by his witty sayings, and, at the same time presented work in magic that was really wonderful.

There was a little trouble with the moving picture machine on account of the blowing out of a fuse, which caused about three minutes' delay, but the pictures were exceptionally good, a number of comic films were introduced: "The Trip to the Moon" and the impersonation of "The Great Britt-Nelson Fight" were very well received.

A change of program is promised for tonight.

The funeral of Carl Witte will be held Sunday afternoon at 2:30 from the German Evangelist church and interment will be made in Oak Grove cemetery.

WHITE BEAVER IN THE BEST OF HEALTH

A. B. Moll, the well known grocer, who returned from the west, met Dr. D. Frank Powell ("White Beaver") at Omaha and St. Louis, and declares the former mayor of La Crosse is in excellent health, prosperity and spirits. When Mr. Moll met the "Beaver" at Omaha he had in charge a trainload of cattle and a trainload of horses. He sold the cattle for five cents above the market price, but declined to accept \$30,000 for the horses, asking \$35,000. Mr. Moll later met the doctor at St. Louis to which place he had shipped the horses, and enjoyed several days pleasantly with him.

Head Ache Sometimes?

If so, it will interest you to know that it can be stopped with Dr. Miles' Anti-Pain Pills; and without any bad after-effects, and this without danger of forming a drug habit or having your stomach disarranged. They positively contain no opium, morphine, cocaine, chloral, ether or chloroform in any form. Dr. Miles' Anti-Pain Pills relieve pain, and leave only a sense of relief. The reason for this is explained by the fact that headache comes from tired, irritable, turbulent, over-taxed brain nerves. Anti-Pain Pills soothe and strengthen these nerves, thus removing the cause. They are harmless when taken as directed.

"We use Dr. Miles' Anti-Pain Pills for the cure of headache, and we think that there is nothing that will equal them. They will cure the severest spell of nervous or sick headache in a very few minutes. I am of a nervous temperament, and occasionally have spells when my nerves seem to be completely exhausted, and I tremble so I can scarcely contain myself. At these times I always take the Anti-Pain Pills, and they quiet me right away. It is remarkable what a soothing effect they have upon the nerves."

FOOD DOES IT.

Curious How Right Food Rebuilds Body.

The benefits of the good, red blood made by Grape-Nuts food is described in a letter from Chicago:

"I was for years sadly afflicted with hemorrhoids caused by constipation, which was the result of impure blood supplied by food not adapted to the needs of the body under certain conditions. My trouble extended to rectal hemorrhoids which greatly reduced my strength. A surgical operation gave me no relief and I was compelled finally to quit business.

"Luckily, just when things were looking the blackest, some one recommended Grape-Nuts food as a desirable article of diet, and I began (Dec. 1903) its use, and in a few months brought my health back to me.

"The action of my bowels is free and regular now, and this has brought relief from the hemorrhoids. At the same time a neurotic trouble which had been growing on me and which the doctors could never do anything with, has also disappeared. All this return to health I am free to say I owe to Grape-Nuts food." Name given by Postum Co., Battle Creek, Mich. There's a reason.

WIFE DESERTER IS ON TRIAL

Charged with wife desertion, both his mother and wife being inmates of the county poor farm home, Rudolf Steiner was arraigned for trial in circuit court this morning.

Steiner has been under arrest since last May, being an inmate of the county jail during the time when Turnkey J. M. Childers assisted Postoffice Robbers Trainor and Cunningham to escape. Defendant was one of the star witnesses against Childers in the trial in United States court, testifying regarding suspicious circumstances in which the turnkey was involved.

Testimony introduced by the prosecution this afternoon indicated that

Steiner deserted his wife a couple of years ago, leaving her in destitute circumstances, it is alleged after spending the proceeds of the sale of her farm. The following jury is trying the case

John C. Rodle, H. T. Heider, Wm. Bracade, Ole Sovde, P. Gleason, L. W. Meyer, Carl Brandt, R. C. Kuhn, H. Singer, Elias Williams, Wm. Nuttleman, J. R. Hartley.

A MADISON EAGLE COMES TO INSTALL AERIE

H. A. Hartman of Madison, state organizer for the Eagles, was in the city this morning and made arrangements for the institution of the aerie here November 15. He announced that 116 members would be initiated on that date, the order starting off under most encouraging conditions.

"The Fraternal Order of Eagles," Mr. Hartman said, "was started as a joke but before many years it will have the largest membership of all fraternal and benevolent organizations. Four new aeries have been instituted in Wisconsin within the past

six weeks. The order now has approximately 200,000 members.

Mr. Hartman is a prominent republican politician in Madison, having had a position in the secretary of state's office under Governor Scofield, at the time W. J. Scott was superintendent of public property. Mr. Hartman called on Mr. Scott this morning and spent an hour talking over old times.

SMOKING AND CHEWING TOBACCOS

LONG CUT FOR SMOKING AND CHEWING
MIXTURE FOR PIPE AND CIGARETTES

The flavor of much of the tobacco made now-a-days is produced by DOCTORING the leaf. Doctoring is a cheat and dangerous to the health of the smoker, but it costs the maker a whole lot less, it enables him to use the cheapest grade of tobacco. Red Feather Tobacco is absolutely free from all artificial flavoring. Its fine flavor and aroma is the result of a perfect blend of high grade leaf, cured by an entirely natural process.

TO MERCHANT ADVERTISERS.

It is of importance to every merchant in this city that he know as nearly as possible the relative circulations of the newspapers in which he advertises.

So far as the city is concerned, the most practical way of determining circulation is by a canvass of the entire city. This will eliminate the possibility of "padding."

We therefore make this offer to the La Crosse Retail Merchants' Association:

The Tribune will contribute to the Merchants' Association one-third (1-3) the expense of such a canvass, upon the following conditions:

A committee to have charge of the canvass shall be chosen at a regular meeting of the association, said committee to be elected, and not appointed by the chair.

The fact that said committee is to be elected shall be advertised in the daily papers at least one week prior to said meeting.

Said committee shall employ canvassers to make a systematic canvass of the city, and said canvassers shall report by blocks the exact number of subscribers each paper has in each and every block in the city.

Canvassers shall also make inquiry of subscribers as to whether they have ordered any papers coming to their homes, whether they read them, and expect to pay for them, and whether they have ordered any papers stopped that continue to come to their homes, and whether any such papers are "sample copies," or are delivered on approval.

Of course the Leader-Press and The Chronicle will agree to defray one-third each of this expense, so there should be no delay in causing the canvass to be made. Or perhaps they will decline, "for business reasons."

THEY DISTRUST HIS "REFORMS."

There is nothing particularly surprising about the circumstance that the Russian people are inclined to accept the czar's proffered constitutional government with a pinch of salt. An insincere autocracy has trafficked with their faith so much that it would be strange indeed were the peasants to take this new good fortune seriously. Were it a fact that the czar is in good faith, he would have no cause to resent the reserve with which his tender is received.

It is not at all certain, on the other hand, that good faith is intended by the imperial party. It is among the easy possibilities that the czar would like to find time in which to evade immediately surrendering to the clamor that foretells his inevitable discomfiture. He may be "sparing for wind," and that this is not regarded as impossible is indicated by the late dispatches to the effect that he is believed to be showing an inclination to recede from his conciliatory position. That would be nothing strange, nor would it be strange were the peasantry of Russia to make assurance doubly sure by re-enacting the scenes of the French revolution. The czar will do well to make his peace with his people while he may; a time will come when the outraged masses will arrange to permit him to make his peace with his maker instead. A bloody revolution is no more than a few thousand miles from Russia at this very moment.

A SAD LESSON.

Eddie Briske, a popular young man, was killed yesterday by the accidental discharge of a gun. He was hunting ducks, and the weapon was fired as he was dragging it toward him, trained on his abdomen, from the bottom of the boat.

This recalls the old axiom that runs, "Whittle from you and you'll never get cut." Had this unfortunate young man taken pains to have the gun pointed away from him, he would not have lost his life.

Recently a party of La Crosse hunters joined a chicken

JUST LIFE

Perhaps Not.

A New Golden Valley correspondent in the Strum Globe prefaces her evidences of intelligence with the following:

"Here comes a new scribe as the old one has left. Perhaps when I see this in print I'll never write again."

To which she adds the following news nubs:

Josie Lewis of Osseo staid over Saturday and Sunday with Gus Johnson's folks.

Somebody told me to inquire about the Lewis scribe. If the certain one has a pain better go to the hospital and have the inflammation cut out.

John Tweet and lady of Northfield visited with Adelia Johnson Sunday. Carrie Omestad and Bergina Udaht were out calling Sunday. Where we do not know.

Suppose you all wonder who I am. Just try and buck against me and you'll find out.

The Russian police probably have determined to let the mobs fight to save the trouble of killing off the revolutionists.

Now we are informed that freedom for Russia was granted by the czar on the advice of President Roosevelt.

Opportunity never knocks as often as bad luck.

Gov. Johnson of Minnesota has

started a new reform by excluding all but authorized persons from hangings. An effort of a sheriff recently to sell tickets to a hanging was the cause.

RACINERUNAWAYS WED; DENY TALE OF FATHER.

RACINE, Wis., Nov. 3.—The disappearance of Eva and Elsie Krevanger, step-daughters of Gustav Kabadger, the Racine county farmer who claimed to have been bound and gagged by George and Charles Madsen, culminated in the marriage at Kankakee, Ill., last evening of Elsie Krevanger and George Madsen and the return of Charles Madsen to this city, leaving the bridal couple at Kankakee and Eva Krevanger at Chicago. Charles Madsen arrived in the city last evening and denied that he and his brother had bound Kabadger, but alleged that when the farmer learned that his stepdaughters were to leave he attacked Charles Madsen with a pitchfork and was thrown to the ground by George Madsen and there held until the girls had gone a considerable distance. The girls will return to Racine.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

Capital punishment is when a man is sentenced to take a thirty days' vacation on full pay.

A woman with winning ways is a great favorite unless you happen to be sitting in a card game with her.

A man has a mighty good memory if he does not forget that he has any religion when he is in a mining camp.

Let us rejoice that no trust can corner the milk of human kindness.

When a girl says that she means to be an old maid she always has her fingers crossed.

As to whether the pen is mightier than the sword depends altogether on who is manipulating that cunning instrument.

A man often wishes his wife would make her own hats until he sees one of her make.

It isn't right to judge a woman by the company she keeps. She may have a commission to reform him.

Imitation may be the sincerest flattery, but we like the straight kind the best.

A man never forgets his wedding day even though he might not be able to tell you the date of it.

He Sets Us Back.

We slave and save and hoard our store
From out our wages meager
And try on high to pile up more,
For greater holdings eager,
And just when dust is falling so
The giant world we may banish
The gold brick man comes round, and, lo,
On wings our riches vanish!

The things we need we do not buy;
We pass up wine and honey
And goods which at stores come high
To save our tainted money,
And when we have a modest pile
Fenced in with fields of clover
The gold brick man comes with a smile,
And we start in all over.

Just Like Them.

"Pa, what's an old maid?"
"There are none."
"Why not?"
"Because, with the contrariety of the eternal feminine, soon as they found that they were serving some useful purpose in the home of some married relative they struck out for themselves and became vain and useless bachelor girls."

Query.

What kind of a home do they think that you boast
When into the wilds you roam
And are chucked in a place where you sizzle and roast
With "all of the comforts of home?"

Wrong Remedy.

"The doctor says that Mrs. Knoquer needs a course in physical culture."
"That is a wrong steer."
"Perhaps you know more than the doctor."
"Well, I know that the last thing she needs is exercise. Every time I see her she has her hammer out."

Knew the Touch.

"Did you ever feel the touch of an unseen hand?" asked the poetic young lady.
"Yes, indeed," replied the reformed sport, "it was the touch of the unseen hand that was held by the other fellow that drove me out of the business."

Only One Luxury.

"He is carrying heavy life insurance."
"For the benefit of his family?"
"No; he isn't married. He can't support a wife and keep up the premiums."

Keeping It Up.

"He takes his wife to the theater just as he did before they were married."
"Considerate of him."
"Yes, but he courted her in the country, where there were no theaters."

The Afterclap.

He owns an automobile, so
An ancient suit he wears,
For all the money that he gets
He blows in for repairs.

A Curiosity.

"Did you notice how critically the milkman examined that cow that went by?"
"Perhaps it was the first one he had ever seen."

Short Cut.

"It seems to be hard for Willie to learn dates."
"He doesn't try. He says when he grows up he is going to buy a date farm."

shooting expedition out of Black River Falls. In the party was a professional guide, a "land pilot" and timber estimator. This man was injured to hardship and danger, and had faced the wild life of the woods for years, but he never so much as climbed a fence without removing the cartridges from his gun. At first his caution provoked merriment, but after one member of the party had accidentally discharged his gun, sentiment changed and in the middle of the second day all the hunters of the outfit were emulating his example. It was a wise course for the guide, and wise for his associates. Death is a heavy penalty to pay for a little carelessness. It is cheaper to be careful and to remember that there is real value to the advice, "Whittle from you and you'll never get cut."

WHO WOULD FARDELS BEAR?

"Who would fardels bear—to groan and sweat under a weary life?"—Hamlet.

Are you carrying too many fardels? The marked trend of things to-day is in the direction of devices to relieve the individual from bearing fardels—this being the old English name for bundles, loads, packages, burdens.

The express companies and parcels post, and mercantile delivery systems have combined to carry our material fardels for us—to leave our arms and limbs at rest, or free for conflict and conquest in the "daily grind."

But the fardels about which Hamlet soliloquized were psychological, rather than material—the "bundles" were mental ones, the burdens made up of worries, perplexities, senses of loss, disappointments. And these still remain to us—to some of us in a double measure, to others in such slight degree as to scarcely merit so hard a name as "Fardels."

A housewife in urgent need of a servant has a particularly ugly fardel to bear; a house-owner without tenants—a real estate dealer with few clients—a man out of employment—a teacher with few students—a landlady with too many empty chairs at her table or too many vacant rooms in her house—these are some of the people who bear mental fardels; and yet these are the sort of fardels no one need bear for long—THEY ARE THE KIND WHICH WANT ADVERTISING CAN TAKE FROM YOUR SHOULDERS. "High device is still the highest force"—and for the purpose of relieving you of "fardels."

WANT ADVERTISING IS "HIGH DEVICE!"

OVERCOAT FACTS

YOU OUGHT TO KNOW

THE love of real good, tasty, refined clothes is not a sign of weakness. Rather is it an indication of personal pride and character. A well groomed man evokes pleased comment always, and human nature is just vain enough to want, and even seek it. Our new Overcoats inspire confidence because they are invariably correct, and they fit so accurately about the neck and shoulders that no possible room is left for improvement. Furthermore, they need no alterations, so that time is saved, mind is pleased, and the interest of the pocket-book are not forgotten.

OVERCOAT MATERIALS--Choicest, richest kerseys, meltons, vicunas, patent beavers, fancy chevots, tweeds, worsteds and oxfords.

OVERCOAT COLORS--Blacks, browns, grays in many shades, tans, olives fancy plaids and combination colors.

OVERCOAT STYLES--Surtouts, Paletots, Chesterfields, box styles in 46 and 51 inch lengths and belt styles.

OVERCOAT PRICES--\$10.00, \$12.50, \$15.00, \$18.00 up to \$25.00.

FUR OVERCOATS--A splendid assortment in all the desirable skins at \$15 to \$30.

Men's Suit News

This season's single and double-breasted sack suits are a revelation, even to us. The manufacturers have surpassed themselves and the lines are actually an improvement on the samples. Notable among them are the double-breasted suits which have the field largely to themselves. The plaids predominate--some with brown, others with gray and dark foundations--all pleasing effects.

Among the style innovations are the peak lapel, pressed flat to let the vest show a little; the moderately flared skirt; the deep vents. Prices \$8.50 to \$24.00.

THE BEST CLOTHES FOR THE BOY

No one, however clever, can improve the appearance of any youngster who has been dressed in this store. We have just as much interest in satisfying both the boy and his parents as they have themselves, because our future trade depends upon it. There isn't a maker of repute whose product we do not carry; there isn't a poor one whose merchandise can be found here under any circumstances. Consequently we cheerfully guarantee every garment.

ESCH TALKS ON PANAMA

Congressman Esch spoke last night at the Y. M. C. A. in the first of a series of practical talks to young men, on "Personal Observations of the Panama Canal." He said in part:

"In the last fifteen years the object of the commercial world has been toward a shortening of the transporta-

tion routes to lessen the time necessary in the transportation of freight from one point to another by the construction of canals and improvement of waterway routes of transportation.

"For 350 years the countries bounding the isthmus were in a state of revolution and nothing known of the canal. In 1836 Henry Clay introduced a bill in congress to secure a franchise for the construction of a railroad across the isthmus; Andrew Jackson, president at the time, signed it. An investigation was made, an engineer sent to the place. On his return he died, but the franchise was forgotten.

"In 1848, a party of New York promoters decided to attempt to secure a franchise across the country without government aid. Aspinwall headed the trio. A town in the country at

the present time bears his name. In 1849 an engineer started work after an investigation. In 1855 the railroad was completed. The New York corporation exists today.

"In the first ten years of the existence of the road over \$700,000,000 of gold was transported across the isthmus on the railroad. It was in the day of the gold fever in California.

"Attention to the canal was called by the fact that the inconvenience was caused shippers in unloading and reloading steamers at Panama and transporting the freight across the country by railroad. A canal connecting the Atlantic and the Pacific was needed.

"In 1850 negotiations were entered into with the central American countries. England started at the same time and did nothing. Nicaragua was

considered the likely country for the canal but England populated the coast with a number of Jamaican negroes and prevented negotiating. Treaty was entered into between England and the United States not to conduct negotiations for a canal for fifty years. In 1901 the treaty was abrogated. Before this time the house had declared itself in favor of the Nicaraguan canal but upon the abrogation of the Clayton-Bulwer treaty speedily recalled this decision and started negotiations for a canal at Panama. France demanded \$100,000,000 for the franchise and her holdings, while the American commission decided that they were valued at \$40,000,000. They refused to be 'held-up' by the foreigners and the house took action. France made the price \$40,000,000 which was agreed. The Nicaraguan canal project was dropped.

"Negotiations were entered into between the United States and Colombia for the purchase of the canal site. A price was fixed at \$10,000,000 and \$250,000 each year for rental. A treaty was made but the Colombian senate refused to ratify it demanding \$10,000,000 with a large yearly rental. Colombia wished to pay off its foreign debts, making the United States furnish the money.

"The Panama revolt followed with the treaty and purchase with Panama instead of Colombia. All are familiar with this history. Tomorrow Panama will celebrate its second anniversary of independence.

"Since this arrangement engineers have been appointed and the work started with great hope of its completion in a comparatively short term of years, to the credit of American genius and engineering."

MODES FOR THE MANY.

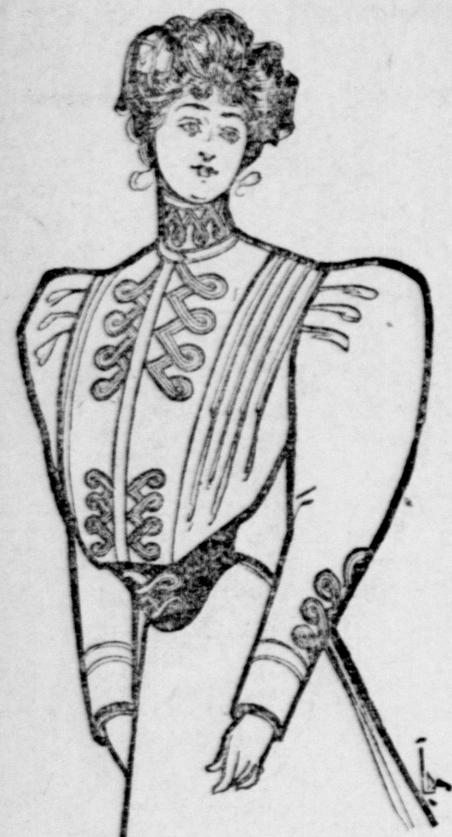

Importance Attached to the Waist Line—Three Piece Velvet Suits.

Great importance is attached this winter to the waist line, and a smart belt is a feature of the well put up costume.

A tiny thread of gilt braid edges the tucks on some stunning gowns, as also do fancy braids harmonizing with the dress material.

On velvet suits are seen bands of satin trimming, the skirts in many rows, and also tiny lines of fur.

Three piece suits in velvet are considered very smart. The waists are

usually made with a chemisette and deep cuffs of lace or embroidery. The coat is a chic empire affair.

Postillon effects will reign supreme. They appear on both evening and day coats and bodices.

Coats with the fronts cut like a man's evening waistcoat will be prominent.

An unbecoming violet blue has taken the place to a great extent of the more attractive Albee shade.

Gowns have long, graceful lines, and the dressy costumes show skirts with decided trains that sweep the ground in front and at the sides.

A black jet buckle on a white belt is one of the newest fancies particularly affected by women who like black and white combinations.

The waist in the cut is of French flannel in turquoise blue. The wide box plaits in front are braided in a looped design with black and white soutache. Girdle and sleeves are treated with the same braiding.

JUDIC CHOLLET.

Secret of Style.

A girl sees a pretty fashion plate. She has it copied by a good dressmaker. The dress is put on. It is good and expensive, but where is the style? The wearer is young; she has a pretty face. What is it that makes her look ordinary, commonplace? She stoops. Another girl has an inexpensive dress. She has such a look of thoroughbred that if she speaks people listen. At each turn of her head one sees a new beauty in her face. Wherever she moves her eyes follow her. What is it which makes all she wears look well? It is the true dignity and ease of her carriage.

Without a good carriage a pretty face is thrown away, the most perfect dress cutting and fitting are thrown away, even refinement of manner is hidden

NEW YORK FASHIONS

Pattern For a Modish Shirt Waist Designed by Martha Dean. No. 6355

"Very smart," you will say on first glance at the accompanying shirt blouse. The design is one of unusual attractiveness and possessing that rare quality of becomingness. A pretty yoke extends over the shoulders and finishes the box plaits which appear in front and back. The front edges of the yoke are tabbed and adorned with small buttons, the same idea being repeated in the cuff. The box plaits are pressed into position and are a pleasing change from the usual stitching. A lightweight broadcloth would make this into a stunning waist, as would silk, linen or rajah. For the medium size three and one-quarter yards of thirty-six inch material are needed. Seven sizes, 32 to 44 inches bust measure.

the proper pride for neatness and cleanliness.—Philadelphia Ledger.

Fine Carpets.

A good authority on Wilton and Axminster carpets tells us that they should never be swept with a straw broom. The corners and edges should be cleaned with a stiff hairbrush and the rest of the floor gone over with a good carpet sweeper. Oriental rugs should never be beaten on the line, but should be swept in the direction of the nap. If very dirty they ought to be laid, face downward, on the porch or grass, beaten with a rattan beater as they lie and then turned and swept on the right side.

The suggestion to cut a piece of cardboard to fit over door knobs and bell handles and keep it for use while polishing these accessories is one of the small helps in the running of the domestic machine. By this means the sordid appearance of the woodwork about the plates, which is acquired during the polishing process, will be eliminated.

Children's Food.

Bread and butter should not be given to infants under eighteen months of age except in small quantities. When given the bread should be cut as thinly as possible. Gravy or beef tea may be given with vegetables for dinner to children under two, but they are better without any meat. Children should never be allowed to eat between meals.

Thin Necks.

If your neck is thin and scrawny wash it with hot water every night, rubbing thoroughly afterward with a Turkish towel, after which massage the skin with cocoa butter or coconut oil. Wear loose collars and dispense with these accessories whenever you can.

When milk has been burned pour it at once into a jug and stand it in a basin of cold water until it is cool, when it will be found to be quite free from the burned smell and taste.

NO EXCUSE FOR NOT BELIEVING.

"Then you don't believe in phrenology?"
"No, rather not. I once gave one of those fellows \$5 to read my head, and, after feeling it a long time, all he said was that I had no idea of the value of money."

Cole's Original Hot Blast Stove

Investigate To-day. Even Heat Day and Night. Fire Never Out.

It is the most economical stove made for hard coal, soft coal, slack or lignite coal, because it burns the gas half of the fuel wasted up the chimney with all other stoves. Cuts the fuel bill in half.

It has twice the positive radiating power of other stoves and the patented air-tight and gas-tight construction saves all the gases and that large portion of the heat lost up the chimney with your old stove. AVOID IMITATIONS.

We have told you much about Cole's Original Hot Blast. Please read the following letters telling what others think of it.

FOR SOFT COAL

COLE MANUFACTURING CO., Chicago, Ill.

Gentlemen.—Your stove is very satisfactory. I used a Round Oak for a number of years and noted the quantity of coal used. I find your Hot Blast will do the same service with at least one-half the coal. One year ago I used an imitation Hot Blast which was not satisfactory, as it was not air-tight and could not be made so, hence would not hold fire over night or keep a steady fire by day. Cole's Hot Blast is tight, and has kept fire for us for two nights and a day without attention, and blazed up on opening up the drafts without a fresh supply of fuel. The heat is given off regularly as you want it, and it is possible to maintain the temperature desired in the room.

Very truly yours,

C. F. GOLTRY.

COLE MANUFACTURING CO., Chicago, Ill.

I think so highly of Cole's Hot Blast Stove that if I were without a heater I would not accept any other kind as a gift if a Cole's Heater could be purchased. The good points in favor of Cole's Hot Blast are first, the great economy of fuel, and second, the ease and perfection with which the heat can be regulated.

J. HOLMAN.

Gentlemen.—After thoroughly testing your Hot Blast Stove for soft coal, I would first say that more than half of soft coal is volatile or gaseous, and a slight heating of the coal drives this gas up the chimney, thus wasting it for available heat. Your method of prior heating of the air to over 500 degrees and your Top Hot Blast Draft, together with the air-tight base, distills the gases from the surface of the fuel, gives surface combustion, saves the waste of other stoves, and gives a steady, controllable heat.

It is the most economical and best heating stove I have ever tested.

DR. V. T. MCGILCUDDY, President.

FOR HARD COAL

Gentlemen.—I am using four Cole's Hot Blast stoves burning hard coal in all of them, and they are cheaper, give better satisfaction, less trouble, more heat and are easier controlled than any stove I ever saw. I have tried two imitation Hot Blast stoves, but returned to Cole's and would not use any other.

J. A. DOWNEY, M. D.

COLE MANUFACTURING CO., Chicago, Ill.

Gentlemen.—I will tell you my experience with Cole's Hot Blast stoves. I first put a 24-inch stove in my store and am heating the room with half of the hard coal I was using with a base burner largest size. This set me to thinking. I then took one 18-inch stove and set it up in my house in the place of a large base burner with an 18-inch firepot. I am heating the same rooms and heating them better with half the hard coal that I was using with the base burner. I then set up the 12-inch stove in my tin shop and am getting as good results as with the others. I have adopted the plan for several years to fully test any article which is a new thing to me, before I place same in stock to sell to my customers. This is the reason I have taken the interest I have with your stoves.

Truly yours,

B. A. TIBBITS.

MESSRS. ROSENBERG & WOLFE, Agents for Cole's Hot Blast.

Cole's Hot Blast for Hard Coal

Gentlemen.—I want to say a few words of praise for Cole's Original Hot Blast Stove purchased of you several weeks ago. I noted the broad and liberal guarantee on same by the makers for burning soft coal, and their claims that it would do better work with hard coal than any other stove manufactured. Upon that and your own recommendation I placed one in my home. I am burning hard coal, and to say the stove is satisfactory is not enough. It is simply a surprise. I am saving one-half in fuel over the stove I formerly used to heat the same space, and getting a greater amount of heat. It is the greatest stove I ever saw, and gives greater satisfaction and more heat with hard coal than a large base burner I am using in another part of the house. I cheerfully recommend Cole's Hot Blast as the most economical and best heating stove for hard coal I ever saw.

Yours truly,

BURTON A. EDWARDS, 361 E. Grand Ave.

NEW COMPANY MAY START PLANT ON MONDAY

Smoke was again issuing from the top of the largest smokestack in the northwest this morning at the New Wisconsin Power & Lighting plant and it is said that they will begin operations Monday.

Some of the finishing touches are now being made on the connections and appliances at the switchboard and engines and they expect to have every thing in readiness to make their first test.

The plant which is strictly fire proof, consists of three 1,000 horsepower boilers and two turbines of 1,000 horse power each. The plant is so constructed that the south wall can be taken out and any additions necessary made.

One unique feature is the coaling apparatus. The coal is taken from the car and hoisted into automatic crushers and then dropped into coal bins situated over the boilers. These bins have a united capacity of 1,000 tons. The coal is dropped from these bins into automatic stokers which feed the boilers.

The plant is equipped with the Westinghouse apparatus, and is run on a three wire transformer system. The company has decided to build a gas plant just north of the power plant next summer.

Many of the north side merchants have wired their stores and have been waiting for the start for some time.

NORTH SIDE YOUNG PEOPLE ENJOY A HAYRACK PARTY

A number of young people from the north side drove around the city and visited the south side last evening while enjoying a hayrack party. Those present were:

Bessie Frayn, Vera Higbee, Vesta Higbee, Cella Picka, Anna Gundersen, Edna Larsen, Haidie Nelson, Elsie Beyer Cecil Rill, Messrs. Chas. Welch, Harry Marshall, Harry Gilton, F. Blanchard, E. Lampman, W. Grady, Robert Frayn, Ray Vaughn and Charley Blanchard.

three of her wheels to leave the track. The occupants jumped just in time to save their lives, as another car which came after them piled on top of the engine. The engineer stuck to his post until he stopped the locomotive. All has been cleared and business is rushing the same as it has been for some time.

About fifty or more brand new box cars from Chicago passed through today.

Three stock trains passed through Grand Crossing.

Ed Halseth has accepted a position as night call boy.

Percy Boyle is night clerk.

William Colgan, of Berlin street who is learning the machinist's trade at the machine shops at Grand Crossing is laying off for a few days on account of illness.

LINEN SHOWER FOR BRIDE AND GROOM

Miss Jennie Johnson entertained at a linen shower last evening at her home at 923 Caledonia street in honor of Miss Louise Linns who is soon to be united in marriage to Mr. Frank Williams, a popular young man of the south side.

Miss Linns has been employed for several years as an expert stenographer at the Vought-Berger company and formerly resided in Winona. The evening was spent in a social way, dainty refreshments were served and all enjoyed the evening very much.

GIVES UP AGENCY FOR THE OLD LIGHT COMPANY

August Anderson, the Rose street grocer and proprietor of the Boston Grocery house, has resigned his position as agent for the old lighting company. He declares that the process of getting money orders to send the money collected to the south side did not agree with his ideas and caused too much trouble, therefore he decided to discontinue the agency and residents in the southern part of the north side will hereafter have to go to the south side to pay their bills.

OLD LADY BREAKS LEG IN A FALL

Mrs. Elizabeth McNamara, 210 Caledonia street, slipped and fell near her residence yesterday and fractured her leg below the knee. The fracture was reduced but as she is quite old and feeble it will probably be some time before the bone will be knit together so she will be able to be about again.

MILWAUKEE NOTES.

Trains Nos. 57 and 1 were about four hours late this morning on account of a little wreck near Watertown Junction. Several cars were derailed and had to be removed before traffic could be resumed. No one was injured.

The Badger football eleven from Madison accompanied by a large number of rooters passed through the north side in two sleepers this morning enroute for Minneapolis where they will play the Gophers in a great game to-morrow.

As Remp is again able to play and the coach has formed a new machine which he thinks the Gophers will be unable to break they are playing in great hopes this season and expect to win for Wisconsin.

They did not arrive here until 6:10 as they were delayed enroute.

Mrs. Joseph Markvart of 817 Hager street received a message yesterday that her mother had died suddenly. She left for Chicago where her mother resides last evening in company with her husband who is the foreman of the woodshop at the Vought-Berger company.

Mrs. Markvart's mother was here some time ago visiting them and at that time seemed to be in the best of health and the news of her sudden death therefore came as a great shock to her.

CUT BURNING FUSE ON DYNAMITE KEG

NEW YORK, Nov. 2.—Twenty-five families in the big double tenement at No. 64 Leroy street were thrown into a panic late last night when a twelve-pound paint keg with a fuse lighted and burning close to its contents was found in a hallway on the second floor in front of the apartments of Michaelo Legreto, an Italian, who lives there with his wife and children. When a woman saw the fuse sputtering she thought some one had fired the building and quickly alarmed the janitor, L. C. Levy, who lives on the ground floor.

Levy, seeing at once what was about to occur, shouted at the top of his voice, alarming all the Italians and amid the wildest excitement men, women and children fled to the street. Panic spread to adjoining tenements, which were emptied in a few seconds.

John Skelly, watchman on a building in course of construction, a few doors away, whipped out a penknife and cut the fuse, which by that time was within an inch of the keg's top.

Policeman Dennin, of the Charles street station, took the keg to the station. In the top a small hole had been bored and a fuse about two feet long and covered with powder run through it. When Dennin in the station announced what it was he carried he frightened a score of policemen seated in the reserve room.

The keg was carefully placed in water and left in the cellar. Sergeant Grady, of the bureau of combustibles, said he would allow the keg of supposed explosives to remain in the station until this morning, when it will be examined. The desk sergeant immediately received applications from half of the force to go to their homes for the rest of the night.

So far as could be learned last night no letters from a "Black Hand" band had been received by any persons living in the house. If the keg contains dynamite there was enough of it to have blown the house to pieces.

George and the Cheap Light

At least two of the scores of businessmen who received the "notice" of the Light Trust as to "cheap light" with their extortionate bills on the first, got even. The "notice" is as follows:

"Beginning December 1st, 1905, the price of electric current will be 7½ cents per thousand watts, instead of 10 cents—the minimum bill remaining 75 cents per month as heretofore.

"Upon examination you will find that this is cheaper than a 5 cent rate, plus a 'reading to serve charge,' which means paying something for nothing.

"We wish to assure our patrons that they will at all times have the benefit of the lowest price at which electric current will be furnished in this city.

"La Crosse Gas & Electric Co."

One gentleman returned his "notice" to President McMillan with the following note:

"Oh thank you so much. You are so kind to the people!"

The other note: "Thank you 10,000 times for giving us cheaper light, all of your own free will, too! So good of you, George!"

I. O. O. F. REPORT INTERESTING

The report of Grand Secretary Tilton, of the I. O. O. F., contains some figures of interest to the members of this great fraternity. It shows the number of subordinate lodge members in the state June 30, 1905, to be 52,676, a gain for the term of 775.

Telephone War Waxes Warm

The telephone war in Winona and vicinity has broken out in a new place, says the Winona Republican. Within the past week an effort has been made by the Northwestern Telephone Exchange company to secure connection with the numerous farmers' lines running into Nodine. There are about two hundred farmers on these lines, and by means of a wire from Nodine to Witoka they have secured connection through Witoka with the lines of the Winona Telephone company, and also have had at their disposal the long distance connections offered by the Tri-State Telephone company.

Recently representatives of the Northwestern Telephone Exchange company have been sent among the farmers on these lines and have endeavored to work up a sentiment in favor of changing the connections from those now existing with the Independent telephone companies of Winona and La Crosse to the Northwestern company. Within the past few days a meeting has been held between officers of these farmers' lines and representatives of the Northwestern Telephone company, the Winona Telephone company and the La Crosse Telephone company to discuss the situation.

The Northwestern company wants the privilege of exclusive connections, and it is said makes a further requirement that the farmers put in Northwestern instruments, and in addition to the regular telephone rentals pay an annual royalty for the use of these instruments. At the present time most of the farmers on these lines own their own phones and if the change in long distance connection was made would, if this regulation was enforced, be compelled to replace them with Northwestern instruments.

FOUGHT WILD DEER IN CITY STREET

SOUTH NORWALK, Conn., Nov. 3.—Henry J. Buckingham, a local painter, is the only man yet on record in Connecticut who has fought with a wild deer in the streets of a city.

While on his way to work at seven o'clock this morning on his bicycle a large buck dashed across the street and ran full tilt into the rider. Buckingham was knocked several feet from his wheel and was then attacked by the animal.

Seeing that he must defend himself or be badly hurt, Buckingham seized the buck around the neck, and then began a wrestling bout, no hold barred.

Buckingham, who is a large man, finally conquered. He threw the deer and dashed behind a tree, and then the animal ran away.

WELCOME HOME TO HERMAN NOLL

Commenting on the recent marriage here of Herman Noll, Jr., a paper published at Clifton, Idaho, his present home, says:

"Herman Noll, Jr., who left Clifton several weeks ago for his old home in La Crosse, Wisconsin, returned Tuesday evening with his bride. When Mr. Noll left Clifton he refused to state the mission of his trip, but as the Era stated, he had an object in view which panned out well, and now he is the happiest young man in Clifton. His capture adds another handsome bride to the already large list that have been brought to Clifton during the past year. Mrs. Noll is one of Wisconsin's fairest daughters, being both charming and beautiful, and Herman is to be congratulated on his good fortune. Mr. Noll is one of the most popular young men in this section, having resided here several years. He is at present connected with the Shannon store as head bookkeeper. Mr. and Mrs. Noll will go to housekeeping as soon as their cozy little cottage on Hill's addition is finished, which will be about the 10th of next month. Mr. and Mrs. Noll have many friends who welcome them to the camp and join the Era in wishing them a long and prosperous life."

OPPOSE THE BRIDGE PLANS AT PORTAGE

PORTAGE, Wis., Nov. 3.—The war department yesterday forwarded Mayor Zienert its decision in the matter of a new steel fixed bridge over the Wisconsin river here to replace that which was destroyed by a tornado last August. The decision in part follows:

"The application received careful consideration by the chief of engineers, in connection with the report of the local United States engineer officer, and a public hearing which was given by him to interested parties, and the conclusion has been reached both by the chief of engineers and by the department that it is not deemed advisable to approve the plans presented. The department will, however, interpose no objection to construction of the bridge, as proposed, it being understood that such noninterference shall not be considered as a waiver in any way by United States of its rights to require under provisions of the statutes any alteration of structure which may hereafter be deemed necessary in the interest of navigation."

The decision is signed by Robert Shaw Oliver, acting secretary of war.

Salmon Fishing Popular Here

Salmon fishing is being pursued with much zeal by the anglers, says the Dubuque Times. Several excellent catches were made Sunday around Eagle Point. The ice harbor was also a favorite spot for a num-

ber of fishermen. The sloughs and ponds in the south end, near the levee, were frozen over early Sunday morning and a slight scum of ice formed at the edge of the Mississippi.

Here is a conjecture as to why the pickerel bite better in October than in any other month.

It is in October when the pickerel reaches his keenest biting humor. Whether it is in that month our fresh water lakes and ponds grow clearer or because the dying weeds expose the minnows, or that the shiners live more closely and become easier vic-

tims, or that the pickerel feeds harder to put on flesh against the coming winter or all these causes combined—must be left in limbo of fishy doubt, albeit they are all plausible. But what we positively know is that the October pickerel, as the white frost thickens becomes a momile, greedy and almost systematic food hunter. In June, July, August or even in September—unless the frosts come early you may take him or you may not. In October he is ripe for a day's sport and the hunter's moon is also the symbol of the angler's success.
